

FPID Number	414506-2-22-01 & 414506-2-32-01
County	Manatee
Road Name	SR 70
Project Limits	From: Lorraine Road To: CR 675
Roadway ID	13160000
Mile Posts	From: 9.476 To: 15.567
Type of Project	Roadway widening
Brief Description of Improvements	This project proposes to widen the existing two lane rural roadway to a six-lane high speed curbed (inside and outside) section from Lorraine Road to Greenbrook Boulevard. From Greenbrook Boulevard to Bourneside Road the typical section will be a four-lane high speed curbed (inside and outside) section that can be expanded to six-lanes using inside widening. From Bourneside Road to CR 675 the typical section will be a four-lane high speed with flush outside shoulders with pavement savings of the existing lanes where feasible. SR 70 is proposed to have six-foot sidewalks on both sides of the roadway adjacent to the right of way line. This project also proposes to incorporate five-foot paved outside shoulders from Lorraine Road to Bourneside Boulevard and ten-foot outside shoulders (five-foot paved) from Bourneside Boulevard to CR 675.
Preliminary Context Classification (SR 70)	
Existing	Context Classification: (C3R) From: Lorraine Road To: CR 675 – Waterbury Road
