

## I-4 at SR 557 Interchange Improvements 201215-3

| Project Details      |  |
|----------------------|--|
| Work Type            | Interchange<br>Construction            |
| Phase                | Construction                           |
| Limits               | Exit 48                                |
| <b>Project Start</b> | Late 2020                              |
| City                 | Auburndale<br>Lake Alfred<br>Polk City |
| County               | Polk                                   |
| Road                 | CR 557<br>I-4<br>SR 557                |
| Construction<br>Cost | \$70,460,250                           |
| Estimated Completion | Early 2024                             |

## About

The Design-Build Team is in the process of replacing the existing partial cloverleaf interchange with a new diamond configuration. The new interchange is designed to improve traffic circulation and enhance safety, emergency access, and truck access in Polk County, Florida.
