ROAD CONSTRUCTION

The Florida Department of Transportation's (FDOT) contractor, Lane Construction Corporation, is making improvements to SR 636 (East Main Street) at SR 64 just east of the City of Wauchula in Hardee County, Florida. SR 636 will be widened from SR 64 to Ed Wells Road to accommodate a new left and right turn lane. The FDOT contractor will build a new section of road to realign the SR 64 connection to SR 636. Crews are also adding drainage pipes. Expected completion is summer 2017.

DETOURS

Starting Monday, February 6, 2017, SR 64 between SR 636 (East Main Street) and Ed Wells Road will be under construction. During this time traffic will be detoured 24 hours a day utilizing SR 636 and US 17. Detour routes are in place for motorists to travel around the work zone. Watch for lighted message boards and signs directing traffic around the work zone. The contractor will maintain access to homes and businesses at all times.

SAFETY

For your safety, maintain a safe distance at all times from construction areas and construction equipment. Remember that speeding fines are doubled when workers are present.
