

FLORIDA DEPARTMENT OF TRANSPORTATION

SR 789 GULF DRIVE FROM 9TH STREET TO AVENUE C

DRAINAGE IMPROVEMENT PROJECT | MANATEE COUNTY

Financial Project ID: FIN 446348-1-52-01

July 2021

CONSTRUCTION PROJECT

Florida's scenic State Road 789, or Gulf Drive, serves as the primary north to south roadway throughout Bradenton Beach. In an effort to mitigate the impact of our coastal weather, FDOT will begin a drainage improvement project from 9th Street to Avenue C. Crews will be removing the current east sidewalk and installing pavers that allow moisture to soak into the ground, easing the burden on storm drains. These also provide an alternative to conventional asphalt or concrete surfaces that cause pooling. During the brief project, please use extra caution in the construction zone, be aware of pedestrians and bicyclists, and expect lane closures and flagging operations.

Estimated construction cost: \$135,271

PROJECT IMPROVEMENTS

The project improvements include removing and replacing the existing east sidewalk with pavers for improved drainage.

PROJECT SCHEDULE

- Project construction begins July 2021 with completion by fall 2021, weather permitting.
- Expect lane closures throughout the project. Variable message signs and flagging operations will guide motorists through the construction zone.
- Expect noise from construction equipment.
