Work starts in May on a Florida Department of Transportation project to resurface US 17 from Avenue G SW to Avenue A SW in Winter Haven. This project includes:

- milling and resurfacing
- drainage improvements
- signal pole and pedestrian signal upgrades
- sidewalk installation and repair
- curb and gutter changes
- driveway modifications

Traffic/Pedestrian Changes During Construction

- Most work that requires lane closures will be done at night from 7 p.m. to 6 a.m.
- Northbound US 17 will be reduced to one lane for five continuous days (Sunday through Thursday), between Avenue E SW and Avenue B SW, while crews install drainage structures and trench drain.
- Third Street SW, from north of Avenue G SW to Avenue F SW will close completely during that same five days while crews install a trench drain. Actual dates will be determined once construction begins.
- The speed limit will remain 40 mph during construction.
- Crews will close portions of the sidewalk as they work in the area. Follow posted pedestrian detours.
