About

The Florida Department of Transportation (FDOT), District One, is proposing improvements on State Road (SR) 865 in Fort Myers, Lee County. The project limits are from Linda Loma Drive to Kelly Road. The purpose of this project is to provide improvements along SR 865 with the intent of enhancing safety along the corridor.

The project includes constructing chicanes, or concrete traffic islands, which will narrow the roadway to discourage speeding. The chicanes will be constructed in each direction on SR 865. Two additional traffic islands are proposed within the existing two-way left-turn lane for additional traffic calming. Additional improvements include installation of new signage and pavement markings. The Department is also exploring additional safety improvements as the design project progresses.
