

UTILITY ASSESSMENT PACKAGE

Florida Department of Transportation

District 1

Burnt Store Road Project Development and Environment (PD&E) Study

Limits of Project: Van Buren Parkway to Charlotte County Line

Lee County, Florida

Financial Management Number: 436928-1-22-01

ETDM Number: 14380

Date: January 2023

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated May 26, 2022 and executed by FHWA and FDOT.

## **1.0 INTRODUCTION**

The Florida Department of Transportation (FDOT), District One, is conducting a Project Development and Environment (PD&E) Study to evaluate the proposed widening of Burnt Store Road (CR 765) from Van Buren Parkway to Charlotte County Line in Lee County. The study also extends a quarter mile north into Charlotte County to tie into the existing four-lane segment. The total project length is approximately 5.7 miles, and the project limits are shown in **Figure 1-1**. Alternatives to be evaluated include the widening of the existing two-lane undivided roadway to four lanes, while accommodating a typical section expandable to six lanes. The proposed project may also include the addition of paved shoulders/marked bicycle lanes, sidewalks, and/or a shared-use path. The purpose of the PD&E Study is to document and evaluate engineering and environmental data that will aid Lee County, Lee Metropolitan Planning Organization (MPO), FDOT District One, and the FDOT Environmental Management Office (EMO) in reaching a decision on the type, preliminary design, and location of the proposed improvements. The study was conducted to meet the requirements of the National Environmental Policy Act (NEPA) and other related federal and state laws, rules, and regulations.

### **1.1 PURPOSE OF UTILITY ASSESSMENT PACKAGE**

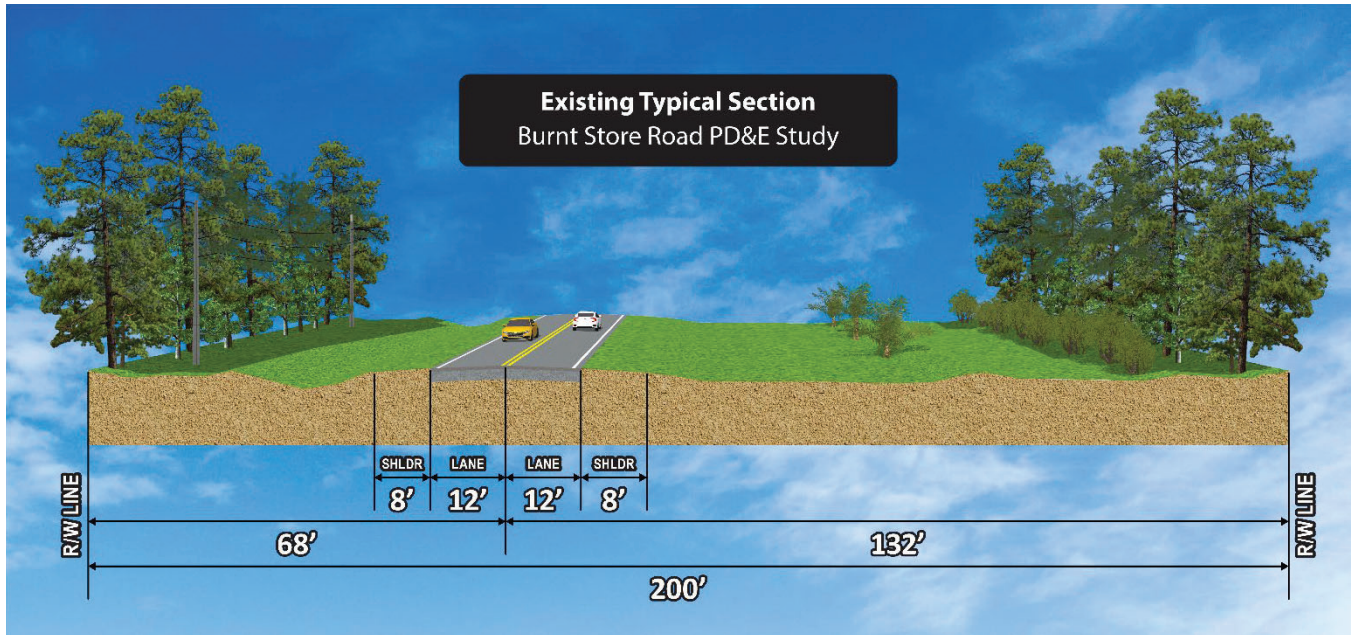

This utility assessment package has been assembled to provide information for existing and planned utilities on Burnt Store Road from Van Buren Parkway to the Charlotte County Line. This package contains information on the names of utility companies, contacts for the Utility Agency Owners (UAOs), utility plans denoting the location of major existing and proposed facilities, the description of each utility identified, project coordination efforts, and information on the cost of relocation, if necessary. This package also includes information on the utility coordination performed during the PD&E phase of the project.

**Figure 1-1: Project Location Map**

## 1.2 EXISTING ROADWAY FACILITY

Within the project limits, Burnt Store Road is a two-lane, undivided facility with 12-foot travel lanes, no paved shoulders and no pedestrian or bicycle facilities. Stormwater runoff is collected in roadside ditches and swales. The roadway is classified as an Urban Principal Arterial from Van Buren Parkway to Sand Road and from north of Charlee Road to the Charlotte County Line. It is classified as a Rural Principal Arterial from north of Sand Road to south of Charlee Road. Posted speed limits are 50 and 55 miles per hour, respectively. The existing typical section is shown in **Figure 1-2**.

**Figure 1-2: Existing Typical Section**

The existing right-of-way (ROW) information was obtained from FDOT ROW maps when Burnt Store Road was originally constructed, Lee County as-built plans, Florida Department of Environmental Protection certified corner records, and property appraiser maps from Lee County. While generally there is an existing 200 feet of ROW along the project limits, this reduces to approximately 140 feet north of the Lee County Line. South of the project limits, the right-of-way consists of 355 feet. Within the existing 200 feet of ROW, the current Burnt Store Road horizontal alignment is shifted to the west, with the roadway centerline approximately 68 feet from the west ROW boundary and approximately 132 feet from the east ROW boundary.

## 2.0 PURPOSE AND NEED

The purpose of this project is to provide additional roadway capacity along the section of Burnt Store Road from Van Buren Parkway to the Charlotte County Line in order to accommodate future travel demand because of area-wide population and employment growth. Other goals of the project include enhancing system linkage/regional connectivity and improving safety conditions along the Burnt Store Road corridor.

Burnt Store Road serves as an important north-south corridor for commuters, in addition to freight traffic, as it runs parallel and connects to regional transportation facilities (i.e., I-75, US 41, and SR 78) and provides access to several developments within Lee and Charlotte Counties. This segment of Burnt Store Road is the only remaining 2-lane section within the roads 18-mile length from SR 78 to US 41. While the roadway currently operates above its designated level of service (LOS) of D or better, projected future 2045 traffic volumes would result in a LOS F if widening does not occur. Additionally, serving as part of the emergency evacuation route network designated by the Florida Division of Emergency Management and Lee County, Burnt Store Road plays a critical role in facilitating traffic flow during emergency evacuation periods. This road segment has been identified as critical and needing additional roadway capacity, due to extensive vehicle queues under various evacuation scenarios for different storm events.

### 3.0 PREFERRED ALTERNATIVE

The Preferred Alternative has an urban typical section with curb and gutter and a closed roadway drainage system for the 4-lane construction. It provides future expandability by widening to the median. It includes two 11-foot travel lanes in each direction, a 40-foot median, seven-foot paved shoulders, and ten-foot shared use paths on each side of the roadway (**Figure 3-1**). With design of a pipe on the east side to capture offsite flows, this is the only alternative analyzed that eliminates ROW impacts along the mainline generally fitting within the existing 200-feet of ROW, with one exception. At the northern limits of the project within Charlotte County on the east side of the roadway, impacts to the Lumen utility parcel, containing a utility building/hub, were unavoidable but greatly minimized.

Figure 3-1: Preferred Alternative

### 4.0 EXISTING UTILITIES

The Utility Agency/Owners (UAOs) were determined using a variety of sources. A Sunshine 811 Design Ticket was requested, the project was visited, and field investigations and observations were made. Above ground utility features were noted and verified with the utility providers and operators during the

coordination process for the project. The final source of data collection was from As-built plans along or adjacent to the study area. A list of the UAOs identified on the project are summarized in **Table 4-1**.

**Table 4-1: Summary of Utility Contact Information**

Company	Contact	Address	Phone # Email	Utilities in Corridor

#### 4.1 UTILITY OWNERS/PROVIDERS AND LOCATIONS

All of the utility providers and operators were contacted on September 23, 2020 and were provided corridor aerial base maps of Burnt Store Road for review. Follow-up contacts occurred on October 11, 2022, for certain UAOs that were thought to have added facilities since the original contact. Copies of these coordination letters can be found in **Appendix A**. Based on the aerial maps, they were asked to assist in location and identifying their existing and planned facilities within the area of study and asked to provide information of any known utility easements and provide an estimated cost for relocation of their facilities, if that were required. Through plan mark-ups and/or verbal descriptions, utility providers or operators provided information on the location and type of existing and planned facilities. At the time of utility contact efforts, none of the UAOs indicated any future planned facilities or upgrades to existing facilities within the project limits, and none indicated there are existing utility easements. The responses from the utility providers are found in **Appendix B**. A description of the existing facilities and any associated relocation costs, if relocation were required, are outlined in **Table 4-2**. For UAOs that did not provide approximate relocation costs, an estimate was calculated using current estimates for that utility type.

Lumen owns a parcel with a utility building/hub on the east side of Burnt Store Road, just north of the Lee County line. While the project preliminary design sought to avoid this parcel, some impacts were unavoidable. As a result, for either build alternative selected, a small portion of the property will be impacted, with an estimate of 43 feet on the south end of the parcel adjacent to the roadway, 23 feet on the north end of the parcel adjacent to the roadway, for an average of a 33-foot linear take. This impact does not result in the need for a relocation of the building itself. However, the driveway leading into the parcel from Burnt Store Road will need to be reconstructed, the parking lot will be partially impacted, and the buried conduit and conduit box within the road ROW will require relocation. Lumen provided an estimated cost for these impacts (excluding ROW acquisition) which was \$720,000. This cost is part of the “cost to cure” related to the ROW acquisition, therefore it is being included in the overall project cost estimates as a ROW cost, and not a utility relocation cost.

## 5.0 UTILITY MITIGATION AND COST

Due to the existing conditions of the project corridor, it is anticipated that the roadway widening of Burnt Store Road could result in some minor impact to existing utility facilities where roadway tie-down slopes would occur. The extent of roadway widening, right-of-way acquisition, and related improvements are shown on the Preferred Alternative concept plans included in **Appendix C**. Efforts to minimize impacts to existing utilities should be taken during the design phase. If impacts are unavoidable, design alternatives will be reviewed to allow for relocation that minimizes cost to the UAO and disruption to their customers.

## 6.0 UTILITY EASEMENTS

Based on information from existing, available roadway plans and responses from UAOs, there are no known easements within the corridor. Therefore, any potential impacts to the existing utilities in the project limits are anticipated to be non-reimbursable.

**Description: Burnt Store Road (CR 765) from Van Buren Parkway to Charlotte County Line PD&E Study**

**County: Lee**

Good morning,

Scalar Consulting Group Inc. has been selected to represent the Florida Department of Transportation in utility coordination between the Department and your agency on the above referenced project.

In an effort to better coordinate the selection of corridor and typical alternatives for roadway widening, and their impact on utilities, I am providing for your review the corridor aerial base maps for the Burnt Store Road PD&E Study. The utilities owned by you may require relocation and/or adjustment as necessitated by the highway construction.

Please mark-up (using the standard FDOT color code) and return one (1) set of aerial maps indicating the location, size and type, etc., of your existing and any future facilities. The mark-up should also identify all known **EASEMENTS** or other lands of ownership rights. I am also requesting you to provide/prepare a rough cost estimate for relocation of your facilities (per mile basis is acceptable), indicating the impact you anticipate with your facilities.

Please also advise us in writing on your company letterhead if you do not have any existing or planned utility installations within the limits of this job.

In your correspondence to my office, please refer to the FPN and description as listed above. This information will need to be returned by **October 23, 2020**.

Thank you for your cooperation. The Department will make sure the information, which you have furnished, will be considered prior to establishing future corridor(s). Please feel free to contact me should you have any questions regarding the project or need any additional information.

The project file can be found in the link below:

Here's a OneDrive link to [436928-1 Burnt Store Road \(CR 765\) from Van Buren Parkway to Charlotte County Line PD&E Study](#).

If you have any issues opening the file, please feel free to reach out to me at (813)988-1199 or

through my email at ([wk Wong@scalarinc.net](mailto:wk Wong@scalarinc.net)).

Kind Regards,

**Winnie Kwong**

---

Good afternoon,

Thank you for responding with the utility markups.

I am confirming that none of your company's have existing utility easements within the roadway R/W.

I am also requesting that you provide a ball-park estimate of how much it would cost for relocation.

Please refer to the FPN and description listed below and reply with the information at your earliest convenience.

Any issues, comments, or concerns can be directed towards myself or Kristen Caruso at (813) 988-1199 ext. 209 or email [kcaruso@scalarinc.net](mailto:kcaruso@scalarinc.net).

**Subject:** RE: PD&E Study at Burnt Store Road - Century Link Building

We do not have any plans currently. This is a PD&E Study where we are developing 4 widening alternatives (for example left widening, center widening, right widening) and then through the public involvement process, we will be selecting a "preferred alternative" that will then get carried through final design. That said, right now we are drafting these 4 alternatives, and see that this is a constrained area given the available R/W by your facility, and expect that any of the conceptual alternatives will involve some amount of R/W need from this parcel. The reason we wish to speak with you is for us to better understand what options we may have as we are finishing these design concepts. For example, how much R/W could be acquired without resulting in a relocation, estimated cost of relocation, your future needs of this facility, etc.

If you are able to meet by TEAMS or GoToMeeting we could share a screen and show you something on an aerial to help further the discussion.

Sincerely,  
Kristin

[Stacey.Walker@Lumen.com](mailto:Stacey.Walker@Lumen.com)  
**RE: Burnt Store RLS**

Stacey

Below you will find budget numbers for the three options we discussed on the phone.

All three options include an estimated cost for clearing the property and required fill dirt for driveway and parking area on CenturyLink property.

- 1. Relocate driveway to north end of property line, approx. 156' long to a 37' x 50' pad for 2 regular parking spaces and 1 Handicap parking at back of building.**  
**BUDGET AMOUNT \$475,000**
2. Install base rock bed, concrete culverts or possibly may have to build a small bridge over the existing canal and asphalt driveway from side road near County Water Treatment Plant, approx. 410' long to a 37' x 50' pad for 2 regular parking spaces and 1 Handicap parking at back of building.  
**BUDGET AMOUNT \$1,575,000**
3. Install asphalt driveway over (**County prepared concrete culverts or bridge over the existing canal and install base rock bed to CenturyLink property line**) from side road near County Water Treatment Plant approx. 410' long to a 37' x 50' pad for 2 regular parking spaces and 1 Handicap parking at back of building.  
**BUDGET AMOUNT \$575,000**

**There could be many issues with options 2 and 3 since the canal may be connected to Gasparilla Sound-Charlotte Harbor.**

**Importance:** High

Elizabeth, I am retiring on 12/1 so my peer Carrie Blackman will take over East region transaction responsibilities. I am copying her on this email. My two cents: An easement would be much easier to facilitate instead of a disposition. We've been working with FDOT on an acquisition in FL that has taken over 2 years. At a very high level after looking at this, I believe the next steps are:

1. FDOT to have an appraisal done to value the land – that would be the cost of the easement.
2. FDOT to pay for an ALTA survey indicating exactly where their easement would be including utility locates
3. Lumen would require a permanent easement for a new entry road. FDOT to include this in the survey as well.
4. FDOT to pay for the new entry road and parking lot work.
5. Further evaluation on any network impacts needs to be done – there could be additional costs if anything else is impacted.

Carrie can ensure that our facilities and network groups have an opportunity to review as the project moves forward.

Thanks,

Typically an easement is easier to deal with. A disposition could take many months. By way of example, we have been trying to acquire a parking lot from FDOT for almost 2 yrs now and it still has not closed. An easement could be done in a matter of weeks/months.

Elizabeth,  
Item #3 appears to be a splice box from everything we can see. Relocating that would need to be done by Outside Plant. I'm adding Stacey Walker as we will be discussing this with her and getting some high level estimates for relocating the parking lot and building a drive way to the side road. Since we do not own the land from our property line to that road, we would need a permanent easement across that property.

Thanks,

Colin

Yes you are correct. We are working on the engineering cost analysis regarding equipment relocation. We need to know Lumen's position regarding negotiations of land acquisition or an easement as well as cost. FDOT would like to have all information to determine the road move plan.

Elizabeth,

So if I'm reading this correctly, the question for Corporate Real Estate is:

1. Driveway take (shorten drive, or provide a new driveway from the north, access to be provided from west side of Wallaby Lane (road that leads to county water treatment plant),
2. Driveway and partial take of parking lot (e.g. we take 1 or more spaces and do accommodation for new driveway and lot as before mention),
3. Utility box between roadside ditch and parking lot.
4. What is Lumen's position to negotiate and contract terms for a full fee land acquisition for a portion of this parcel?
5. What would it cost to prepare an acquisition real estate transaction for conveyance of a portion of this parcel to the state?
6. What would it cost to prepare an easement for land use?

I've copied some of our team so they can see this and I'm going to hold a call so we can figure this out.

Thanks,

Colin

**Subject:** N.792519 - FL - PNGR - RDMN - BURNT STORE RD FROM CHARLOTTE COUNTY TO US 41

Good morning Mr. Murray-

Thank you for taking my call this morning. Below is an outline for this project. Please let me know if you have any questions or require additional information. Thanks for your assistance.

1. During Conflict Mitigation Phase we discovered the real property interest for this facility is not an easement, but rather ¼ acre lot owned by United Telephone Co of FL/ CTL/ Lumen. (Deed attached) FDOT plans to complete the widening of Burnt Store Road in Charlotte County. At this moment they are in the planning phase. They provided four widening concepts under investigation. As you can see from the pictures below the widening for this road has stopped prior to the CTL property. The Project Manager, Vivian Mckeon, advised FDOT "After review of facilities leaving the building and going into the right of way there is a mix of fiber and copper cables. The recommendation is not to extend the Northbound lanes south into a direct crossing of the property; this would allow for no right of way on the east side of Burnt Store Road. In addition, any relocation of the facilities within the property would require 100% reimbursement." (Email attached "RE\_Burnt Store Rd and CenturyLink facility building discussion) I have also attached the plans with the greenline markups for the locates.
2. FDOT replied and has requested an estimate of cost "Please estimate cost, if the roadway improvements were to result in a relocation of the facility." Mrs. McKeon is preparing the cost for relocating the fiber/ copper/ facilities.
3. FDOT has also requested an estimate of cost regarding a partial impact. We need the corporate real estate team involvement for this request. FDOT has requested information regarding three alternatives; 1. Driveway take (shorten drive, or provide a new driveway from the north, access to be provided from west side of Wallaby Lane (road that leads to county water treatment plant), 2. Driveway and partial take of parking lot (e.g. we take 1 or more spaces and do accommodation for new driveway and lot as before mention), 3. Utility box between roadside ditch and parking lot.
4. QUESTIONS: What is Lumen's position to negotiate and contract terms for a full fee land acquisition for a portion of this parcel? What would it cost to prepare an acquisition real estate transaction for conveyance of a portion of this parcel to the state? Or would this be impractical and Lumen grant a perpetual easement for land use? What would it cost to prepare an easement for land use?

---

Good afternoon Winnie.

Charlotte County Lighting does not have as-build information on the existing lighting and future communication conduits within the Charlotte County portion of this project. I am providing you with the construction plan set for when these facilities were installed. What was installed in the field should not have deviated that much from what is shown in the plans.

Thank you

---

**Description: Burnt Store Road (CR 765) from Van Buren Parkway to Charlotte County Line PD&E Study**

**County: Lee**

Good morning,

Scalar Consulting Group Inc. has been selected to represent the Florida Department of Transportation in utility coordination between the Department and your agency on the above referenced project.

In an effort to better coordinate the selection of corridor and typical alternatives for roadway widening, and their impact on utilities, I am providing for your review the corridor aerial base maps for the Burnt Store Road PD&E Study. The utilities owned by you may require relocation and/or adjustment as necessitated by the highway construction.

Please mark-up (using the standard FDOT color code) and return one (1) set of aerial maps indicating

the location, size and type, etc., of your existing and any future facilities. The mark-up should also identify all known **EASEMENTS** or other lands of ownership rights. I am also requesting you to provide/prepare a rough cost estimate for relocation of your facilities (per mile basis is acceptable), indicating the impact you anticipate with your facilities.

Please also advise us in writing on your company letterhead if you do not have any existing or planned utility installations within the limits of this job.

In your correspondence to my office, please refer to the FPN and description as listed above. This information will need to be returned by **October 23, 2020**.

Thank you for your cooperation. The Department will make sure the information, which you have furnished, will be considered prior to establishing future corridor(s). Please feel free to contact me should you have any questions regarding the project or need any additional information.

The project file can be found in the link below:

Here's a OneDrive link to [436928-1 Burnt Store Road \(CR 765\) from Van Buren Parkway to Charlotte County Line PD&E Study](#).

If you have any issues opening the file, please feel free to reach out to me at (813)988-1199 or through my email at ([wkwong@scalarinc.net](mailto:wkwong@scalarinc.net)).

Kind Regards,

**Winnie Kwong**

13337 North 56th Street

Tampa, Florida 33617

### PAY ITEM NOTES

715-1-11 FOR SINGLE SPARE CONDUIT RUNS INSTALL ONE #14 TRACER WIRE. FOR SPARE CONDUIT RUNS WITH MULTIPLE SPARE CONDUITS AT LEAST ONE SPARE CONDUIT SHALL HAVE #14 TRACER WIRE.

715-4-022 INCLUDES THE POLE, BRACKET ARM, LUMINAIRE WITH LAMP, ANCHOR BOLTS WITH LOCK NUTS AND WASHERS, FRANGIBLE TRANSFORMER BASE, SURGE PROTECTOR, FUSE HOLDERS WITH FUSES, WATERPROOF CONNECTORS AND #10 RISER WIRE WATERPROOF WIRING CONNECTION TO THE LUMINAIRE AND SODDING. REFER TO SECTION 992 OF THE SPECIFICATIONS FOR DETAILS.

715-7-11 INCLUDES SAFETY SWITCH ON LOAD SIDE OF METER, POLE MOUNTED ENCLOSURES, 480-120V CONTROL POWER TRANSFORMER, FUSES, SURGE PROTECTIVE DEVICES, CONDUIT, FEEDER CONDUCTOR FROM THE POWER COMPANY POINT OF SERVICE TO THE LOAD CENTER, ALL FEES FOR INSPECTION AND CONNECTION OF THE ELECTRICAL SERVICE AND ALL OTHER MISCELLANEOUS HARDWARE REQUIRED FOR A COMPLETE INSTALLATION AS PER PLANS, STANDARD INDEX 17504, AND CURRENT CHARLOTTE COUNTY LIGHTING SUPPLEMENTAL SPECIFICATION.

715-14-11 & 715-14-12 ATTENTION IS CALLED TO THE FACT THAT LIGHTING DISTRICT SPECS CALL OUT THAT PULL BOXES PLACED IN FRONT OF LOAD CENTERS AND ON THE OPPOSITE SIDE OF THE SERVICE POINT ROAD CROSSING SHALL BE LARGER THAN A STANDARD LIGHTING PULL BOX. BOTH SIZES SHALL BE PAID UNDER THESE TWO PAY ITEMS. SEE SHEET L-35 FOR PULL BOX NOTES.

**LIGHTING GENERAL NOTES**

1. ANY DAMAGED PORTIONS OF POLES, FIXTURES, AND BRACKET ARMS SHALL NOT BE ACCEPTED.
2. BEFORE FINAL ACCEPTANCE, CONTRACTOR SHALL PROVIDE 2 SETS OF FULL SIZE AS-BUILT PLANS TO THE MAINTAINING AGENCY CHARLOTTE COUNTY COMMUNITY DEVELOPMENT DEPARTMENT.
3. THE LOCATION OF THE UTILITIES SHOWN IN THE PLANS ARE APPROXIMATE. THE EXACT LOCATION SHALL BE DETERMINED BY THE CONTRACTOR AND UTILITY OWNERS DURING CONSTRUCTION.
4. ALL CONDUITS THAT WILL REMAIN EMPTY SHALL BE MANDREL TESTED, CLEANED INSIDE AND BOTH ENDS CAPPED. LEAVE THE CORROSION RESISTANT PULL WIRE AND PLACE PULL BOXES TO MARK THE LOCATION OF THE ENDS OF THE CONDUITS.
5. ALL MATERIAL, UNLESS OTHERWISE SPECIFIED, SHALL BE UNDERWRITERS LABORATORY (UL APPROVED).
6. PULL BOX SHALL MEET CHARLOTTE COUNTY STANDARDS.
7. ALL PULL BOXES FOR ROADWAY LIGHTING SHALL HAVE STAMPED COVERS LABELED "STREET LIGHTING".
8. INSTALLATION OF LIGHTING POLES AND CIRCUITS SHALL BE IN ACCORDANCE WITH THE FDOT 2012 DESIGN STANDARDS, INDEX 17500 AND 17501, AND THE LATEST NATIONAL ELECTRIC CODE. ALL COMPONENTS SHALL BE PROPERLY GROUNDED AND BONDED PER N.E.C. AND N.E.S.C. CODE AND 2013 EDITION CHARLOTTE COUNTY LIGHTING DISTRICT SUPPLEMENTAL SPECIFICATIONS.
9. FOUR COPIES OF SHOP DRAWINGS AND DESIGN DATA SHALL BE SUBMITTED TO THE ENGINEER OF RECORD WITH A COPY OF THE SUBMITTAL LETTER SENT TO CHARLOTTE COUNTY COMMUNITY DEVELOPMENT DEPARTMENT. A COPY OF SHOP DRAWINGS SHALL BE SENT TO CHARLOTTE COUNTY FOR REVIEW AND APPROVAL ALLOW A 30 DAY TURNAROUND FOR SUBMITTALS.
10. LOAD CENTERS SHALL BE USED FOR ROADWAY LIGHTING ONLY.
11. LIGHTING CONTRACTOR MUST FOLLOW ALL OSHA RULES AND REGULATIONS WHEN WORKING IN THE VICINITY OF ENERGIZED FPL HIGH VOLTAGE ELECTRIC LINES. AT NO TIME SHOULD ANY PERSONNEL OR EQUIPMENT BE CLOSER THAN 10 FEET TO SAID ENERGIZED LINES.
12. PULLING INSTRUCTIONS: CONNECT PULLING DEVICES TO COPPER WIRE AND NOT TO JACKET AND MEET MANUFACTURER'S REQUIREMENTS USE PULLING COMPOUND PER MANUFACTURER'S REQUIREMENTS. ALL BENDS SHALL BE NOT LESS THAN RECOMMENDED BY N.E.C. OR N.E.S.C. FOR CABLES USED.
13. STAKE ALL POLE LOCATIONS AND REQUEST UTILITY COMPANIES TO LOCATE AND STAKE UNDERGROUND UTILITIES PRIOR TO EXCAVATING, OR SETTING HELICAL FOUNDATIONS.
14. MAINTAIN ACCESS TO ALL SIDE STREETS, PRIVATE AND COMMERCIAL DRIVEWAYS AT ALL TIMES DURING CONSTRUCTION.
15. NOTIFY "SUNSHINE STATE ONE CALL" (1-800-432-4770), AND ANY OTHER UTILITIES 48 HOURS PRIOR TO CONSTRUCTION OPERATION AND PRIOR TO ANY CONNECTION TO EXISTING UTILITIES. IT IS THE CONTRACTORS RESPONSIBILITY TO CONTACT ALL UTILITY COMPANIES BOTH PRIVATE AND PUBLIC PRIOR TO ANY UNDERGROUND WORK. IT IS THE CONTRACTORS RESPONSIBILITY TO PROTECT EXISTING UTILITIES FROM DAMAGE.
16. NOTIFY FPL AT LEAST 48 HOURS PRIOR TO ANY INSTALLATION THAT IS WITHIN 10 FEET OF ENERGIZED ELECTRICAL CONDUCTORS. FPL AT ITS OPTION SHALL ASSIST THE CONTRACTOR TO COVER UP ENERGIZED CONDUCTORS AT INSTALLATION SITE OR TAKE OTHER SAFETY PRECAUTIONS AS NECESSARY. EXTREME CAUTION SHALL BE EXERCISED AT ALL TIMES IN PERFORMANCE OF WORK AROUND ANY PRIMARY, HIGH VOLTAGE COMPONENTS.
17. MINIMUM DEPTH OF COVER ON THE LIGHTING CONDUIT SHALL BE 30".
18. INSTALL SURGE PROTECTIVE DEVICES, PROPERLY GROUNDED IN POWER (SECONDARY) ENTRANCES.
19. IN ACCORDANCE WITH N.E.C., IDENTIFY ALL CIRCUITS AND EQUIPMENT WITH "LAMACOID TAGS". INSTALL SIMILAR TAGS OF STAINLESS STEEL IDENTIFYING THE CIRCUIT FOR EACH LUMINAIRE AT ACCESS HANDHOLE FOR EACH POLE.
20. WHENEVER POSSIBLE ALL CONDUITS UNDER ROADWAY AND SIDEWALK SHALL BE INSTALLED PRIOR TO INSTALLATION OF THE ROADWAY BASE AND SURFACE. NO OPEN CUT OF FINAL PAVEMENT SURFACES SHALL BE ALLOWED.
21. AT LOCATIONS WHERE UNDERGROUND UTILITIES ARE IN CLOSE PROXIMITY TO THE LIGHTING POLE FOUNDATIONS OR CONDUIT RUN, AS DETERMINED BY THE ENGINEER, IT MAY BE NECESSARY TO INVESTIGATE THE FIRST FOUR FEET OF THE FOUNDATION OR CONDUIT RUN BY HAND DIGGING.
22. ALL CONDUIT TRENCHES SHALL BE BACKFILLED COMPLETELY TO PROVIDE SAFE CROSSING BY THE END OF EACH WORKING DAY OR WHENEVER THE WORK ZONE BECOMES INACTIVE. DO NOT OPEN ANY AREA THAT CANNOT BE BACKFILLED IN THE SAME DAY/NIGHT OPERATION.
23. ANY EXCESS DIRT AND DEBRIS RESULTING FROM INSTALLATION OF POLE FOUNDATION, TRENCHING OR DIRECTIONAL DRILLING SHALL BE REMOVED DAILY TO AREAS APPROVED BY THE ENGINEER.
24. THE LIGHTING SYSTEM SHALL BE MAINTAINED BY CHARLOTTE COUNTY COMMUNITY DEVELOPMENT DISTRICT UPON FINAL ACCEPTANCE.
25. THERE SHALL BE NO SPLICES MADE IN PULL BOXES UNLESS AUTHORIZED BY CHARLOTTE COUNTY LIGHTING DISTRICT.
26. ALL LIGHT POLES, PULL BOXES AND LOAD CENTERS SHALL NOT BE INSTALLED WITHIN ANY DITCH AREAS THAT MAY CAUSE WATER INTRUSION. FOR POLE LOCATIONS WITHIN 1 FOOT VERTICALLY OF DITCH BOTTOM CONTRACTOR SHALL BERM UP FOUNDATION TO MINIMUM OF 1 FOOT ABOVE BOTTOM OF DITCH. SEE LIGHT POLE MOUNDING DETAIL (THIS SHEET).
27. ALL CURRENT CARRYING CONDUCTORS SHALL HAVE BLACK THHN/THWN INSULATION RATED AT 600 VOLTS. ALL GROUNDED CONDUCTORS SHALL HAVE CONTINUOUS WHITE THHN/THWN INSULATION RATED AT 600 VOLTS. ALL GROUNDING CONDUCTORS SHALL HAVE CONTINUOUS GREEN THHN/THWN INSULATION RATED AT 600 VOLTS.
28. ALUMINUM POLES, LUMINAIRES AND BASES SHALL BE FABRICATED IN ACCORDANCE WITH "AASHTO'S STANDARD SPECIFICATIONS FOR STRUCTURAL SUPPORTS FOR HIGHWAY SIGNS, LUMINAIRES AND TRAFFIC SIGNALS" AND SHALL HAVE BEEN TESTED BY FHWA-APPROVED METHODS. CERTIFICATIONS FOR TESTS SHALL BE SUBMITTED WITH THE SHOP DRAWINGS.
29. CONTRACTOR IS TO DELAY IN THE INSTALLATION OF THE LIGHT POLE FOUNDATIONS ALONG THE WEST SIDE OF BURNT STORE ROAD FROM STATION 107+00 TO 244+00 UNTIL THE EXISTING RECLAIM WATER MAIN HAS BEEN REMOVED TO AVOID CONFLICTS.
30. CONDUCTORS SHALL BE INSTALLED WITH SUFFICIENT SLACK AT THE BASE OF THE POLE TO ALLOW WIRES AND CONNECTIONS TO BE PULLED OUTSIDE THE TRANSFORMER BASE HOUSING.
31. CONTRACTOR TO COORDINATE WITH TELEPHONE AND POWER COMPANIES TO IDENTIFY AND FLAG ANY POINT OF CONFLICT WITH THE LIGHTING SYSTEM. RELOCATION OF FACILITIES TO BE PERFORMED BY FPL, COMCAST, AND CENTURY LINK ACCORDINGLY
32. DIRECTIONAL BORE UNDER SIDE STREETS OR DRIVEWAYS BEGIN AND END AT LEAST 15' BEHIND EDGE OF PAVEMENT AND SHALL BE AT LEAST 30" BENEATH PAVEMENT SURFACE.
33. AT EACH LIGHT POLE CONNECT PULL BOX TO LIGHT POLE FOUNDATION BY MEANS OF A 1 1/4" SEAL TIGHT CONDUIT.
34. ALL NON-ELECTRICAL THREADED HARDWARE, ALL MECHANICAL ELECTRICAL CONNECTIONS AND ANY THREADED COMPONENT REQUIRING ASSEMBLY SHALL BE COATED WITH IDEAL NOALOX ANTI-OXIDANT COMPOUND.

**LIGHT POLE FOUNDATION DETAILS**

HELIX MUST BE FORMED BY MATCHING METAL DIE (SIDE VIEW OF TRUE HELICAL FORM)

LIGHTING FOUNDATION  
CAT. NO. T112-0673  
WIND SPEED DESIGN 130 MPH

- FINISH: HOT DIP GALVANIZE PER ASTM-A153 (LATEST REVISION).
- BASEPLATE TO BE PERPENDICULAR TO SHAFT AXIS ( $\pm 1^\circ$ ) AND HOLE CENTERLINE CONCENTRIC ( $\pm .188$ ) TO SHAFT AXIS.
- STENCIL MIN. 1/2 IN. LETTERS MANUFACTURER'S NUMBER AFTER GALVANIZING.
- PILOT POINT AND SHAFT AXES TO BE CONCENTRIC ( $\pm .125$  FIM) AND IN LINE ( $\pm 2^\circ$ ).
- FLAME CUT TWO SLOTS IN SHAFT PERPENDICULAR TO THE BASEPLATE.
- PREHEAT, TUMBLEBLAST, HANDGRIND, AND CLEAN BASEPLATE, HELIX, AND PILOT POINT ON ALL WELDED AREAS.
- FLAMECUT IRREGULARITIES PERMISSIBLE: (1) VALLEYS NOT TO EXCEED 3/32 IN. BELOW NOMINAL SURFACE LEVEL, (2) PEAKS OR POSITIVE IRREGULARITIES NOT TO EXCEED 1/32 IN. ABOVE NOMINAL SURFACE LEVEL OR INTERSECTIONS OF NOMINAL SURFACES.
- MANUFACTURER TO HAVE IN EFFECT INDUSTRY RECOGNIZED WRITTEN QUALITY CONTROL FOR ALL MATERIALS AND MANUFACTURING PROCESSES.
- ALL MATERIAL IS TO BE NEW, UNUSED AND MILL TRACEABLE MEETING THE FOLLOWING SPECIFICATIONS:

BASEPLATE: ASTM A36-(LATEST REVISION) STRUCTURAL STEEL  
SHAFT: ASTM A252-(LATEST REVISION) GRADE 2, STEEL PIPE PILES.  
ALTERNATE MATERIAL: ASTM A53-(LATEST REVISION) TYPE E OR S, GRADE B, STEEL PIPE OR ASTM A500-(LATEST REVISION) GRADE B, STRUCTURAL STEEL TUBING.  
HELIX: ASTM A635-(LATEST REVISION) 1/2" THICK HOT ROLLED STEEL PLATE OR COIL.  
PILOT POINT: ASTM A575-(LATEST REVISION) 1-1/4" DIAMETER HOT ROLLED STEEL BAR.  
BOLTS: CARRIAGE BOLT 1-8UNC-2A PER ANSI B-18.2.1, SAE J429 GRADE-5.  
NUTS: HEAVY HEX NUT PER ASTM A194 GRADE 2H OR ASTM A563 GRADE DH, MEETING SUPPLEMENTARY REQUIREMENTS OF ASTM A563, 1-8UNC-2B PER ANSI B18.2.2.

- BASEPLATE IS PERMANENTLY STAMPED WITH MANUFACTURER'S IDENTIFICATION "ABC" IN 1/2" LETTERS AND THE JULIAN DATE CODE IN 1/4" LETTERS.
- BASEPLATE PERMANENTLY MARKED TO INDICATE CABLEWAY OPENING IN SHAFT.

Good afternoon Winnie,

I will be your primary contact for this. Please save my contact info below for any further contact to CCU. I will have your mark up to you within a few business days. Will email suffice or will this be in the PSE site? I would prefer email as the PSE can be glitchy.

I look forward to working with you,

Hendrik

Good Morning John,

The green lines in the link below are still correct. However the line represented as privately owned have now been conveyed to CCU. All water, wastewater and reclaimed mains represented on these green lines now belong to CCU. Please let me know if you require anything else.

Good afternoon,

I am working on finalizing the utility coordination for Scalar Consulting Group's project for Burnt Store Rd (FPID: 436928-1-22-01).

Upon a field visit in 2021, we became aware of the possibility of some water main lines being extended to the south from the Charlotte Co line.

Is there any new information that would be helpful towards finalizing our UAO submission?

Thank you,

John C. Czerkawski, E.I.

Good afternoon Mr. Czerkawski,  
CCU is estimating a cost of \$12,750,000.00 for the removal and replacement of the reclaim water, water, and wastewater mains. Please note this does not include any cost for land acquisition that may be needed for utility easements.  
If you require any more information or assistance please feel free to contact me directly,  
Respectfully,  
Hendrik

Good afternoon,

Thank you for responding with the utility markups.

I am confirming that none of your company's have existing utility easements within the roadway R/W.

I am also requesting that you provide a ball-park estimate of how much it would cost for relocation.

Please refer to the FPN and description listed below and reply with the information at your earliest convenience.

Any issues, comments, or concerns can be directed towards myself or Kristen Caruso at (813) 988-1199 ext. 209 or email [kcaruso@scalarinc.net](mailto:kcaruso@scalarinc.net).

**FPN: 436928-1-22-01**

**Description: Burnt Store Road (CR 765) from Van Buren Parkway to Charlotte County Line PD&E Study**

**County: Lee**

Good morning,

Scalar Consulting Group Inc. has been selected to represent the Florida Department of Transportation in utility coordination between the Department and your agency on the above

referenced project.

In an effort to better coordinate the selection of corridor and typical alternatives for roadway widening, and their impact on utilities, I am providing for your review the corridor aerial base maps for the Burnt Store Road PD&E Study. The utilities owned by you may require relocation and/or adjustment as necessitated by the highway construction.

Please mark-up (using the standard FDOT color code) and return one (1) set of aerial maps indicating the location, size and type, etc., of your existing and any future facilities. The mark-up should also identify all known **EASEMENTS** or other lands of ownership rights. I am also requesting you to provide/prepare a rough cost estimate for relocation of your facilities (per mile basis is acceptable), indicating the impact you anticipate with your facilities.

Please also advise us in writing on your company letterhead if you do not have any existing or planned utility installations within the limits of this job.

In your correspondence to my office, please refer to the FPN and description as listed above. This information will need to be returned by **October 23, 2020**.

Thank you for your cooperation. The Department will make sure the information, which you have furnished, will be considered prior to establishing future corridor(s). Please feel free to contact me should you have any questions regarding the project or need any additional information.

The project file can be found in the link below:

Here's a OneDrive link to [436928-1 Burnt Store Road \(CR 765\) from Van Buren Parkway to Charlotte County Line PD&E Study](#).

If you have any issues opening the file, please feel free to reach out to me at (813)988-1199 or through my email at ([wkwong@scalarinc.net](mailto:wkwong@scalarinc.net)).

Kind Regards,

**Winnie Kwong**

---

John,

I see the greenlines for the Phase I plans but nothing about relocation. As far as easement goes, I did not look at all pages but it appears we are just on the FPL poles in FDOT R/W. Typically the engineers would provide utility conflicts to the proposed FDOT plans. Thank you.

Good morning Steve,

On Tuesday I sent out an email to all utility providers in the area for the Burnt Store Rd PD&E Study with a follow up email/request for utility easement information and an estimated relocation cost.

It seems Mr. Leonard Maxwell-Newbold is not the correct contact for Comcast Internet, so after taking a second look at the contact information we have, you are listed as the correct contact.

Please see the attached email and let me know if you have any questions or problems coming up with the requested information. Thank you and have a great day.

Respectfully,

**John Czerkowski, E.I.**

Good afternoon,

Thank you for responding with the utility markups.

I am confirming that none of your company's have existing utility easements within the roadway R/W.

I am also requesting that you provide a ball-park estimate of how much it would cost for relocation.

Please refer to the FPN and description listed below and reply with the information at your earliest convenience.

Any issues, comments, or concerns can be directed towards myself or Kristen Caruso at (813) 988-1199 ext. 209 or email [kcaruso@scalarinc.net](mailto:kcaruso@scalarinc.net).
